Subject: Shipment Approval on MIL-DTL-38999 Series I, II, & III and MIL-C-22992

Valued Partner,

Amphenol Aerospace has received approval from DLA to begin shipment on newly manufactured D38999 and 22992 (commonly referred to as Class-L and QWLD) connectors. After confirming your compliance to the below criteria, and acknowledging your current status as a Franchised Class-C Distributor, Amphenol hereby authorizes you to begin shipment on the subject product.

Qualifying Criteria:

1. Confirmation that bills of materials for Mil-Spec product have been updated to reflect only approved source materials; this should be in accordance with the *Amphenol One* system
2. BOM example provided certifying that all connectors now call out "M" part numbers where applicable
3. Confirmation that all finished goods and WIP have been quarantined and dispositioned as directed by Amphenol
4. Confirmation that inventory controls are in place which segregate components able to be used in Mil-Spec and Commercial products

Regards,

David B. King
