

HIGHLY RELIABLE PRODUCTS FOR MILITARY & DEFENSE APPLICATIONS

XMA offers a diverse array of passive interconnect components for Military and Defense applications, encompassing a wide spectrum of uses from subterranean to air and space systems. Our product lines include legacy offerings noted for their dependability in addition to modern solutions with state of the art technology.

Our high reliability products are implemented in a variety of applications including:

- Radar and GPS – ground and space based applications
- Test and simulation platforms – space hardened and lab applications
- Integrated RF assemblies and sub-systems for mil/aero
- Space qualified RF components and sub-assemblies
- Quantum computing

Relying on a combination of Omni-Spectra heritage and modern upgrades and additions, our legacy product lines are dependable, high quality, and well-renowned.

About XMA

XMA Corporation-Omni Spectra® is a manufacturer of passive microwave components. With design and manufacturing in the United States, XMA supplies products of the highest quality and RF performance to the space, military, quantum, telecom, and test & measurement markets.

FAMILY OF MILITARY & DEFENSE PRODUCTS

Attenuators

DC-110GHz,
.5-250 Watts

Couplers

DC-65GHz, various
coupling options

DC Blocks

100MHz-65GHz, inner,
outer, and inner/outer

Power Dividers

DC-65GHz,
up to 8 ways

Terminations

DC-110GHz, multiple
form factors
